

Googling ?

“ If it isn't on Google, it doesn't exist. ”

Jimmy Wales

Hamza Dabaghi

## search within a specific website

- You want to **limit** the search across a certain website because you either **trust** its content or you just want to look for your **search terms** within it anyway.

- Try : `scrum site:medium.com`

Keywords

website

2

Use quotes : " "

- If you search for : "scrum and achieving agility", you will get results that have all those words.
- Try : "Messi is not the goat anymore"

search terms

3

## Search Related Websites

- Search for **similar** websites by using the **related**, It's a powerful **Google search tool** that can help you find **new** sites to browse.

- Try : **related:facebook.com**

website

4

## Search File Types

- If you're looking for a specific kind of file on the internet, use **filetype:** to search only for uploaded files that match your query.
- Try : realme 8 **filetype:pdf**

pdf documents

5

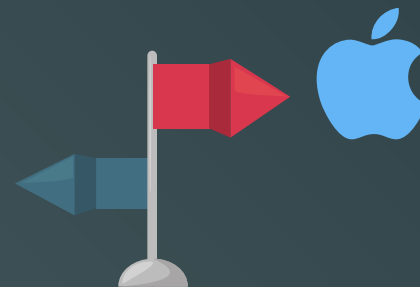

## search operators

- Use the minus ( - ) or the plus ( + ) symbols to **exclude** or **include** all the terms you don't want.

- Try : Top apps in 2022 -android

android is excluded

6

try synonyms using a tilde (~)

- When you want to look for a specific keyword and any synonyms for that one.

- Try : Android ~low-price

inexpensive

cheap

...

7

Unknown words : \* (Asterisk)

- Use an **asterisk** within **quotes** ( " " ) to specify **unknown** or **variable** words.

- Try : "\* is expensive than Porsche Panamera"

could be any car

8

## Filters & Other pages

- Try using the **filters** in the **Tools** tab such as **time**, it's very useful when looking for **breaking** news, **updated** content, etc.
- Google doesn't have a **single** page, try the other **pages**.

&

Thanks for your time
